HOW DO YOU PAY YOUR BILLS?**

Lets make your operations efficient
and cost-effective with
iRecharge!

WHAT IS iRECHARGE?

iRecharge is an electronic distribution platform for airtime, internet, power, cable TV and bulk SMS. This platform integrates seamlessly with all major telecoms operators and service providers to give value added service to clients and help them save on major operations cost.

We understand that the core of most business operations includes paying bills for airtime, internet, power and also making subscription payments for cable TV.

With iRecharge, your operations are centralized and all transactions are fulfilled instantly.

Our service providers include:

■ **Airtime- Supports prepaid, postpaid and CUG lines.**

■ **Mobile data & Internet**

■ **Power**

■ **Cable TV**

■ **SMS**

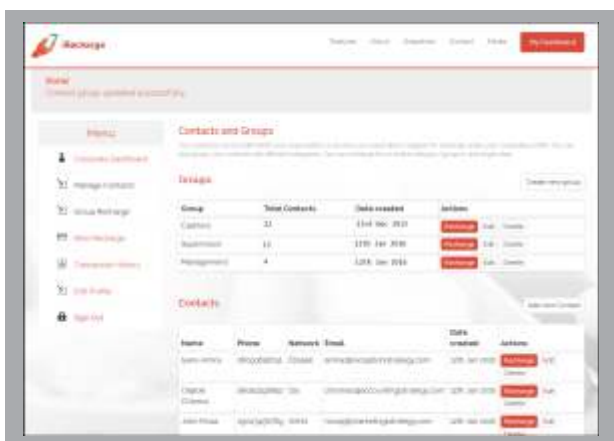

Schedule SMS, SMS Marketing and SMS Template Location

iRECHARGE VENDOR PROGRAMME

The iRecharge vendor program is available to:

- Business Merchants such as hotels, pharmacies and supermarket have integrated the platform with their Point of Sale software.
- Online Vendors are websites that have high volume of traffic and sell from their website(s) by integrating the API.
- Individual vendors can sell from any smart mobile device and can receive all notifications via SMS instead of email.

This platform allows you to:

- Sell airtime, internet data, power and cable TV.
- Open New Revenue Channel.
- Solve the problem by offering your customer their “Change” as airtime.
- Increase average revenue per customer.
- Increase customer retention propensity.
- Increase brand value.
